

Eco Laundry Detergent

Product Description

Eco Laundry Liquid has been formulated with the environment in mind and as far as possible contains naturally derived ingredients with favourable eco-toxicity and health and safety profiles. It combines a high-performance alternative to phosphate with multi-functional benefits.

Core Benefits

- Concentrated formula, reducing the cost in use, single use plastic and CO₂e
- Formulated with environmentally favourable ingredients
- Contains an effective phosphate replacement additive
- Powerful chelating action
- Excellent builder functionality
- Incorporates naturally derived surfactants from renewable, plant-derived sources such as sugars, palm/coconut oil and natural alcohols
- Precipitation of silicate, carbonates and phosphates are prevented
- Effectively prevents anti-deposition of hydrophilic soils
- Reduces CO₂e by up to 85%

How does it work?

Eco Laundry Liquid uses a clever combination of naturally derived plant softeners and cleaning agents which work synergistically with an environmentally friendly alternative to phosphate. The multi-functional benefits offered by this unique formulation, means that it will quickly and easily remove dirt, grease, blood, organic soils and food residues from clothes at low temperatures and the undesirable use of phosphate is successfully avoided.

Directions for use

Manually dose 8 -15 ml per kg of washing load depending on soiling or dose via BioHygiene dosing pumps. Suitable for low machine temperatures of 30-40°C. Ideal for hand washing.

Product specification

Contains: Fresh fragrance, water softeners and cleaning agents.

Environmental

- Local UK Production and supply chain reduces CO2e impact from transport
- Technologies are renewable and sustainable, sourced from plant extracts, fermentation, microbes and manufacturing by-products reducing CO2e and environmental toxicity.
- Highly concentrated to reduce plastic, transport and storage costs and environmental impact.
- Readily biodegradable (99% over <28 days).
- 0% manufacturing waste.
- Not tested on animals.
- Excludes all 'watch list' raw materials.

Safety & Storage

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet (SDS). Only for professional users/specialists. Store in original closed containers away from extremes of temperature.
