

Urinal & Toilet Cleaner

Product Description

Urinal & Toilet Cleaner utilises specific microbes and eco surfactants for cleaning and deodorising urinals and toilets.

Core Benefits

- Triple action: cleans / deodorises / reduces scale build up
- Viscous formulation to effectively clean and provide long last cling to toilet bowls and urinals
- Product specific microbes establish effective self renewing biofilms deep inside inaccessible plumbing lines
- Long lasting foam in the toilet bowl
- The product microbes break down organic matter including ammonia, volatile fatty acids, proteins and uric acid, long after product application
- Natural, safe and effective way to combat organic waste and odour problems
- Cleans pipes and drain lines
- Safe on all washroom surfaces
- Reduces CO2e by up to 85%

How does it work?

Toilets and urinals smell, become covered in scale and unless cleaned effectively can have costly repercussions within the pipework of the drainage system.

Urinal & Toilet Cleaner combines biodegradable surfactants, fresh fragrance and specific microbial strains to digest organic debris at source.

The microbes secrete enzymes that break down:

- insoluble and unsightly uric scale, significantly reducing its build up and potential to block pipes.
- organic compounds including ammonia, volatile fatty acids and proteinaceous waste, providing long lasting odour control.

Directions for use

Apply liberally around the urinal or toilet and clean in the normal manner.
No need to rinse.

Product specification

Contains: Thickening agent, fresh fragrance, water softeners, cleaning agents and product specific microbes.

Environmental

- Local UK Production and supply chain reduces CO2e impact from transport
- Technologies are renewable and sustainable, sourced from plant extracts, fermentation, microbes and manufacturing by-products reducing CO2e and environmental toxicity.
- Post Consumer Recycled bottles provide a circular life cycle reducing CO2e and removing physical plastic pollution.
- Readily biodegradable (99% over <28 days).
- 0% manufacturing waste.
- Not tested on animals.
- Excludes all 'watch list' raw materials.

Safety & Storage

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet (SDS). Only for professional users/specialists. Store in original closed containers away from extremes of temperature.
